
INITIAL MEETING NOTES

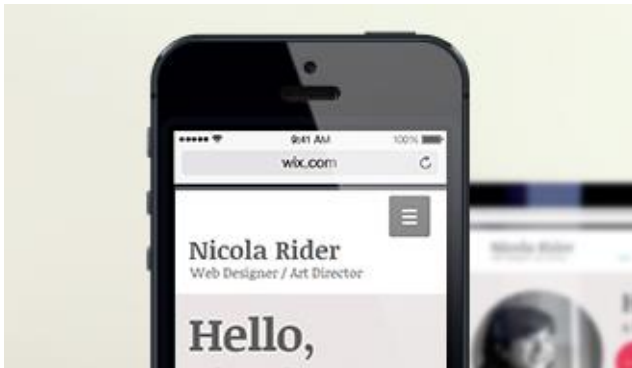

Creative Designer: Tiffany P.
Designer: Danny A.

LANDING PAGE

Large eye-catching image
User scrolls through blurbs of different pages with links to them

NAVIGATION BAR

At the top
Style is up to you
[Forgot to mention during meeting] Responsive mobile version should have an expandable menu like the pictured below. We're learning J-Query to accomplish this next week, but let me know if this poses too big a challenge!

TEXT

Big bold text for headers and titles

PAGES

Header image at the top with title/subtitle over it
Universal styling

IMAGES

Darker to enhance serious mood and allow words to stand out
History section may be more picture heavy
