NOTES FROM HTML REVIEW

Designer: Danny A.

Creative Director: Tiffany Powell

- Love the look of the landing page! It looks so spooky!

- Like the wrapped text in the history page

- I don't think the menu needs "Menu" at the top. I think it will look cleaner without it.

- A slightly higher line height for the text would be nice!

- Not sure about the menu buttons getting bigger is the move, maybe try changing the color of them to gray for the selected item.
